ACRAW

This is Oglethorpe, not merely a set of buildings on the Piedmont plateau, but a living, breathing edifice dedicated to those principles for which and by which men live.

It is our hope that this book will recall to mind the different aspects of life as we have made it for ourselves in the time we have been at Oglethorpe using the tools and guidance of the Oglethorpe Plan.

This book is humbly dedicated  
to the memory of a man who  
was the embodiment of all that  
we can hope to achieve with the  
advantage of an Oglethorpe  
education. In his spirit, Dr. Mac  
Connell was Oglethorpe.

# THE STORMY PETREL

OFFICIAL CAMPUS NEWSPAPER OF OGLETHORPE UNIVERSITY

*Published as a regular part of the North DeKalb Record and the Norcross News.*

1951

## Petrel-Record Combine

The 1950-51 Stormy Petrel was published and distributed with the North DeKalb Record and Norcross News, the official organ of the cities of North Atlanta, Chamblee and Doraville.

Although the two papers were printed and distributed as one, The Stormy Petrel in no way lost its identity as the Oglethorpe University newspaper. It was printed under its own banner, and it occupied the four center pages of the North DeKalb Record and Norcross News. All the copy was gathered, written and edited by students of Oglethorpe.

Tom Ronan, Editor of the Stormy Petrel in the Fall Quarter, said in announcing the move that it was being made for three main reasons. The first reason was that it was felt that by distributing The Stormy Petrel with the North DeKalb Record and Norcross News the community of North Atlanta could be brought into closer contact with Oglethorpe, and Oglethorpe could be brought into closer contact with the community. It was also felt that a greater exchange of ideas between the two, brought about by the combined distribution, would in time lead to the solution of many problems faced by both. This close co-operation between the University and the Community has long been an ideal of Oglethorpe University.

Another reason put forth for the action was

that it gave the students working on The Stormy Petrel added opportunities to gain actual journalism experience. Tom Ronan said in an editorial in the first issue of this year's Stormy Petrel, "Under the new system the staff works under actual newspaper conditions. There are real deadlines to be met; there are very real standards to be realized."

Under the new system Mr. Dan Bailey, former editor of the North DeKalb Record and Norcross News and present Director of Public Relations for Oglethorpe University, has been appointed Faculty Advisor to The Stormy Petrel. It was found by the staff throughout the year that Bailey's experience in the field of journalism was very helpful to them in their publishing a good newspaper.

The third reason for the conjunction of the two papers was that by increasing The Stormy Petrel's circulation its market value as an advertising medium would be enhanced. In this way it was hoped that The Stormy Petrel might not only end the year in the 'black', but might even become a self-supporting activity.

At the beginning of the Winter Quarter Tom Ronan retired as Editor of The Stormy Petrel, turning the post over to Steve Coine, former Advertising Manager and head of the Business Staff. Ronan's reason for leaving the position was that due to increased commitments outside of school he would no longer have enough time to properly do the work required to edit the paper.

Ronan served on The Stormy Petrel in 1949-'50 as Sports Editor. It was under his direction as Editor-in-Chief that the 1950-51 Stormy Petrel began its policy of being published and distributed with the North DeKalb Record and Norcross News.

While serving The Stormy Petrel as Advertising Manager and head of the Business Staff, Coine familiarized himself with the job of Editor in order that he could move more smoothly into the post at the beginning of the Winter Quarter.

Under the direction of Coine, the editorial and business policies of The Stormy Petrel remained fundamentally unchanged, and the paper continued to come out in conjunction with the North DeKalb Record and Norcross News.

MURIEL LEWIS

STEVE COINE

TOM RONAN

DAN BAILEY

Irv Lewis, Sports Editor, O. K. Sheffield, Feature Editor, and Don Bloemer, News Editor, without whose active participation the 1951 Stormy Petrel could not have been published.

We, the editors and the staff of The Stormy Petrel, wish to take this opportunity to publicly offer our heartfelt appreciation and gratitude to Mr. Dan Bailey, former Editor of the North DeKalb Record and Norcross News, Director of Public Relations of Oglethorpe University, and Faculty Advisor to The Stormy Petrel for his untiring efforts in behalf of The Stormy Petrel which meant so much to us.

We want to thank you for all those Monday night meetings when you not only gave us advice on the issue that was coming out that week, but also gave us helpful instruction about journalism in general. It was in those meetings that most of got our first look at the rules and traditions of journalism, not as taught in books, but as actually practiced in the city rooms and on the editorial desks of real newspapers.

We feel that it was your influence as a good newspaperman as well as your expert knowledge that helped us to attain new and higher standards for The Stormy Petrel. So, from the editors and staff, thanks Dan, for all you have done for us.

# THE STORMY PETREL

# The Petrel Policy

The STORMY PETREL will try its utmost to be the local unit of the student body. It will attempt to present in an unbiased manner the views and news of Oglethorpe students and faculty both past and present. All material is not necessarily the opinion of THE STORMY PETREL. Therefore signed articles will represent the sentiments of the student, or other persons writing them, and will not be that of this newspaper.

This year the student body approved the plan of THE STORMY PETREL being published in conjunction with THE NORTH DEKALB RECORD AND NORCROSS NEWS as a four page individual section in order that the paper might better serve the University in that it would be able to be published every two weeks instead of the previous policy of a monthly publication.

We feel that this difference in your STORMY PETREL this year has been beneficial in the following ways:

First: The editors and staff were given the opportunity to gain real journalistic experience through this new system and the staff had to work under actual newspaper conditions. There were real deadlines to be met and real standards to be realized. This has made your paper a more mature one.

Second: This combined publication gave THE STORMY PETREL an increased circulation which in turn gave your newspaper more "ad-appeal" which enabled the paper to become a self-supporting activity.

Third: The staff hoped to achieve an ideal long held by Oglethorpe. That was to assist in bringing the community of North DeKalb into closer contact with the University and the University into closer contact with the community. We feel that this objective has been achieved to a great extent.

We firmly believe that this combined publication has benefited all the students here at the University and THE STORMY PETREL policy has remained unchanged throughout this year.

The above paragraphs have given you an idea of the policies upon which we, the editors and the staff of your paper, have published THE STORMY PETREL and in doing so have devoted our time, patience, and energy in order that we may better serve our fellow students, our faculty, and our University.

## News Staff and Sports Staff Report Many Events of Year

On The Stormy Petrel, as on any other newspaper, it is the job of the News Staff to be on the constant look-out for items of general interest to readers of the paper. After they have found a story, or one has been assigned to them by the Editor, they must interpret it in order that they may place the correct emphasis on the various points.

After doing the necessary research to get all the facts about the story, they must organize in their mind just what they want to say and how they want to say it. Then comes the job of actually writing the story and submitting it to the Editor who chooses those articles of the greatest interest to the readers of the paper for publication.

The job of the Sports Staff is rather like that of the News Staff, however, it often entails making trips with the team in order to be able to give a clear picture of what took place at the games. Both staffs, unlike the Editorial and Feature Staffs, are constantly faced with the problem of reporting what actually happened rather than giving their opinion as to what has happened.

News Staff—Bloemer, Arenbach, Fischer

## Sports Staff

Cummings, Forbes, Lewis

Regardless of how good a news, feature, or sports staff may be, a newspaper is only as good as the business staff because the paper would remain unpublished if it did not have a sound financial basis. It is the job of this staff to solicit all advertising, keep the records balanced, and see that all bills of the paper are promptly paid.

The feature staff's main objective is to supply the student body with the lighter side of your Stormy Petrel. Their articles range from the flip comments found in "Can You Imagine" to the more historical thoughts found in the articles dealing with the background of your university. Primarily, their efforts are spent in giving you interesting articles that make for easy reading.

Tennis anyone?

# INTRAMURAL SPORTS PROGRAM

# football

The 1951 intramural football season, consisting of the rats of Lowry Hall, the determined youth of Lupton Hall, the never-say-die town students, and the consistent and usually triumphant Barrack's team, terminated with the Barracks once again victorious. The season proved injurious to all teams and the stalwart Barracks claimed the championship after all opponents withdrew from the tussle.

# intramural basketball

The determined Barracks team, after a successful football season, went all-out to capture the basketball championship too. Combining speed with experience, the Barracks swiftly eliminated the Lowryites, the kids from Lupton Hall, and the old men, calling themselves the Town Students. Opponent after opponent was quickly disposed of and the Barracks had copped two out of three of Oglethorpe's Intramural Athletic Honors. However, credit for determination is given to Lowry Hall, Lupton Hall, and the Town Students for their undauntless courage.
